raining must be done until high accuracy is obtained

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Open article

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
To develop a machine learning-powered online tool for identifying Parkinson's disease

Go for volume.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Mahalakshmi

Quick Response

Must give proper guidance for user

Should use large datasets

Apply XGBoost algorithm

Raveena

Enhance through user reviews

Improvements to interface

Help prescribe medicine based on the affected stage

Use the latest machine learning algorithm

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

Aditi

Crucial in safety and privacy

Deliver high search accuracy

Right amount of data should be used

Easy access to data for user

Afrin Nirmala

Less cost

Must not be time consuming

Training must be done until high accuracy is obtained

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Detection

Identify the genetic aspect of the condition

Distorted Handwriting

Medical history, a review of signs and symptoms, and a neurological and physical examination
Transcripted and tabulated Voice test data used to predict the condition

Approach for Solution

Browse for existing solutions

Test both Voice and Spiral Drawing of affected People

Provide different results for different dataset
Doctor can conclude normality or abnormality and prescribe appropriate medicine

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

User Perspective

Easy usability

Confidentiality of information between user and doctor

Authentication before every login

Privacy of the user must be ensured

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint
Define the components of a new idea or strategy.
